High School Diploma in Mechanics, Mechatronics, and Energy <i>ITIS G. Galilei (Conegliano, Italy)</i> 2011 - 2016
Bachelor's Degree in Computer Science (In Progress) <i>Ca' Foscari University of Venice</i>

PERSONAL PROJECTS

Llamadio Kanban

A multi-project Kanban platform whose permissions stack in three layers — platform role, project role, then per-column exceptions — so access can be scoped to “upvote and promote, but only in the Review column”.

[Go To Site](#)

Lingo Reign

A swipe-to-decide kingdom game where the court only speaks the language you are learning. Read a petition correctly and the faction that asked warms to you; misread it and Faith, People, Army or Gold turns on you.

[Go To Site](#)

Alessandro Amadio — Archivio Isometrico

A portfolio for an architect, built as an isometric archive: one blueprint plate per year, traversed by scrolling, with a WebGL viewer for each project's 3D model. Committing a folder of models and photos is the whole publishing workflow.

llamadio.dev — this site

The CV you are reading. A personal site shaped like a code editor: file-tree navigation, tabs, a status bar and a terminal that runs real commands — Italian and English, dark and light, and it prints to a clean CV.

[Go To Site](#)

Biemme Webtools

A cloud client that talks to BIO boards and systems over MQTT to monitor and control industrial I/O in real time.

Private repository

Fanta Tavolo

A wedding web app where guests bet on the seating chart — fantasy football rules, applied to table plans.

[View Repo](#)

BoardGameShelf

A digital tabletop companion: catalogue your board game collection, connect with friends, and play online.

[View Repo](#)

100! — Puzzle Game

A logic puzzle: fill a grid with consecutive numbers while obeying a strict set of movement rules.

Private repository

Wedding Website

A wedding site with event details, a live countdown and a digital RSVP system backed by Firebase.
